

# MATROX GENESIS-LC PC Compatibility List for August 27, 2001

This list identifies the platforms (systems and motherboards) certified by Matrox Imaging to be compatible with Matrox Genesis-LC.

**IMPORTANT: Platforms listed here DO NOT apply to the Matrox Genesis – Refer to the Matrox Genesis PC Compatibility List.**

Compatibility is defined as the general ability of Matrox Genesis-LC to properly function on the specified platform when using MIL/MIL-Lite 6.0x or higher. It does not necessarily take into account interaction with other expansion peripherals. Therefore, customers should perform testing based on their applications' specific needs. Compatibility is not limited to the platforms listed below. Other platforms with similar characteristics may also be compatible.

**Please contact Matrox Imaging Technical Support for details on compatibility with specific platforms.**
